

Navigation Team Meeting – 29.06.22

- It was decided that due to technical limitations, the team leads would maintain the Navigation Team email box until an administrator is in post. They will circulate any relevant incoming emails, and will send out any official emails on behalf of individual Nav Team members
- We will continue to consider the implications FfM will have on schools, and ensure this is dealt with by the structural team when they are up and running
- A structural Team lead has been appointed but is unable to start until September. A Nav Team lead will stand in as a temporary team lead until September in order to get the team up and running.
